

**FIS 2019 Workshop**  
**Irvine, South California. June 11-13**

# **2019 Workshop on Finance, Insurance and Statistics**

The workshop will held at University of California, Irvine campus, on June 11-13, 2019. The aim of the workshop is "to strengthen communication between individuals and groups who produce and apply research results in insurance, finance and statistics, and integrate the currently fragmented research in both fields".

## **DAY 1: Finance**

Today's Workshop aimed at discuss new empirical and theoretical research in finance, to highlight some of the associated challenges for regulators, also to assess how regulatory changes may induce in turn some financial innovations in the market. Workshop deliberations will be on the following themes:

- Fundamental financial concepts
- Accounting (financial records)
- Tax and Capital Flow
- Institutional Setting
- Financial markets
- Valuation
- Corporate finance.

## **DAY 2: Insurance**

Today's Workshop aimed at both academics and practitioners and providing a general overview over the past and current research results and their practical applications in insurance. Workshop deliberations will be on the following themes:

- Life Insurance;
- Non-Life Insurance;

Reinsurance and Other Risk-Sharing Arrangements;  
Risk Management;  
Financial Modeling.

**DAY 3: Statistic**

Today’s Workshop aimed at bringing together statistical practitioners engaged in the application of statistics on a daily basis, and discussing research needs and solutions to the methodological challenges in the design of studies and analysis of data for finance and insurance research. Workshop deliberations will be on the following themes:

- Theoretical Statistics
- Mathematical Statistics
- Descriptive Statistics
- Inferential Statistics / Statistical Inference
- Statistics in Society
- Applied and Interdisciplinary Statistics
- Computational and Graphical Statistics

**3. As a participant you will:**

- Fully engage with the Forum activities, not as a passive listener, but as an active actor who will shape the overall outcome of the Forum. You will listen to keynote addresses and individual presentations and participate in panel discussions. We invite you to prepare a brief paper presenting ( not obligated ) to all the workshop participants and we will make suggestions and comments for your further development and publication.
- The symposium will focus on the frontier topics in the theoretical and applied Finance, Insurance and Statistics.
